

Reflex | Gas Fires

Ambience beyond expectation

The Reflex 75T couples advanced technology with ultra-lifelike logs to create a truly stunning gas flame effect that is almost indistinguishable from a real woodburning fire.

Offering the ultimate in gas fire realism, the Reflex's versatile styling options ensure it can be tailored to suit your home.

Reflex 75T Evoke Steel with Graphite front, Graphite rear and Black Glass lining.
Cover: Reflex 75T Icon XS with Brick-effect lining.

Reflex 75T Edge with Ledge stone-effect lining.
Shown with the Claremont limestone mantel,
matching slip set and optional large limestone hearth.

Peace of Mind

Quality and Innovation of the Highest Standard

When you choose Gazco, quality and innovative technology are assured. From traditional models to contemporary designs, Gazco is committed to creating the ultimate flame-effect gas and electric fires. Our research and development laboratories are amongst the most advanced in the world, ensuring that the very latest innovations are incorporated into our appliances. Gazco is an ISO9001 accredited company.

Our rigorous quality control system ensures that all our appliances comply with British safety standards as well as stringent European regulations. All fires in this brochure are CE marked. This means they have been independently tested to exacting European standards for safety as well as both heating efficiency and emissions.

Five Year Extended Warranty

Your Gazco Expert Retailer will provide you with a Two Year Warranty for your new Reflex gas fire. This can be extended to a Five Year Warranty by registering your fire with Gazco.

Please note, these warranties exclude certain consumable parts. Fires purchased outside of Gazco's Expert Retailer Network will carry a standard one year non-extendable warranty. Full warranty terms and conditions are available to view at www.gazco.com.

Expert Retailer Network

We take great care to ensure that our fires are designed, tested and manufactured to the highest possible quality and safety standards. We are equally careful to make certain they are sold and installed correctly so you can enjoy years of pleasure from your fire.

Our products are only available from experienced, independent retailers who will be happy to show you a selection of models locally in their showrooms, often fully operational. These independent retailers will discuss your individual requirements both technical (such as sizing the heat output to your room and advising on your flue type) and design, and ensure that you select the most appropriate product for your home.

Our experienced retailers will also be able to advise on, or assist with, the installation process as well as help provide any after-sales support and servicing your appliance may require in the future. Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online and we would strongly recommend that you consider this when undertaking your research and making a purchasing decision.

Furthermore, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

Enchanting Effects

The Reflex 75T combines three dynamic features to create captivating flame visuals that reach new levels of realism.

Experience
the Reflex

gazco.com/reflex

Stunning Flames

The very heart of the Reflex's design, the flame visuals have been crafted to mimic a real woodburning fire. Featuring three carefully positioned dual burners, flames dance and flow amongst the logs and can be set to either front only or front and rear flames, with either setting independently adjustable and infinitely variable. Whether you're in the mood for a lazy fire or a dramatic blaze, you can choose the atmosphere you desire. Ensuring a crystal-clear flame view, the Reflex features non-reflective glass for a flawless, open-fire aesthetic.

Ultra-realistic Log-effects

The natural beauty of burning wood logs is one of the most charming elements of a wood fire. Expert crafting techniques combined with cutting-edge technology makes the Reflex's log-effect fuel bed indiscernible from natural logs – ensuring every minute detail of the wood's texture and grain is captured. Concealing the innovative dual burner system, the ultra-realistic log-effect ensures the Reflex creates an eye-catching centrepiece.

EmberLight LED Bed

Encouraging intimate conversation and quiet reflection, a glowing hearth bathes the room in a relaxing ambience and soft warmth. The Reflex features an innovative EmberLight bed that combines LED lighting with glass ember-effects, creating an

immersive display which can be experienced with or without the flames - letting you enjoy the Reflex's glow all year round.

Reflex 75T Key Features

- Up to 8.6kW heat output
- 75% efficiency
- LED lighting effects
- Non-reflective glass for crystal-clear flame view
- Various frame and lining options
- Harmony¹⁰ Programmable Thermostatic Remote Control
- Natural Gas or LPG
- Conventional flue fire

Gazco Harmony¹⁰ Control System

Gazco's Harmony¹⁰ control system lets you ignite, extinguish or adjust the height and heat of both the front and rear flames. You can also use the handset to activate the Reflex's LED EmberLight bed feature. For complete convenience, this advanced control allows the Reflex to thermostatically maintain a specific room temperature, or program the fire to a daily or weekly schedule to suit your lifestyle. Key functions include:

- Ignite/extinguish flames
- Room Thermostat
- Daily / Weekly schedule
- Front and rear flames
- Flame height
- EmberLight LED bed (with or without flames)

Styling to Suit

With a wealth of styling options to choose from, the Reflex lets you tailor your fire to your home

Lining Options

The backdrop to the stunning flames, the Reflex's lining options let you choose the style of your fire and the atmosphere it will create.

Each lining option offers an entirely different aesthetic, from the depth-enhancing Black Glass to the natural Ledge-stone-effect; you can easily create a contemporary or traditional fireplace to suit your décor.

Frame Options

Each Reflex fire is ready for a frameless hole-in-the-wall, 'Edge' installation, but can be enhanced with any one of the distinctive frames for further styling possibilities. Reflex frames range from luxurious glass to sophisticated steel in a variety of designs and styles.

As well as the contemporary frame choices, the Reflex can also be combined with a number of elegant stone mantels, allowing you to create a beautiful, traditional fireplace with all the benefits of a cutting edge gas-fire.

See the Reflex Burning

The Reflex's spectacular flame visuals are impossible to capture in a still image. To truly experience this stunning fire, view the Reflex video on our website below.

INSTALLATION AND SAFETY

Gazco gas fires must be fitted by a qualified gas installer (Gas Safe registered in the United Kingdom or Bord Gáis registered in the Republic of Ireland) who should also verify the proposed site conditions are fully suitable for the product selected. Complete installation instructions for many models can be obtained prior to purchase by viewing or downloading them from www.gazco.com. Please note that all parts of these fires, particularly the glass panel in the door, become extremely hot during operation and can result in serious injury and burns if touched. It is therefore recommended that a fireguard complying with BS 8423:2002 is used in the presence of young children, the elderly or infirm.

The information on this page is to assist you in your choice of a suitable Gazco fire. This is not intended to be all the information required to install your fire. This can be obtained from your local Gazco retailer or you can download the full installation instructions from the Gazco website at www.gazco.com.

Also available from Gazco

Alongside the Reflex 75T, Gazco offers the stunning Studio, Riva2 & Eclipse gas fire ranges. Featuring a selection of fuel-effects, linings, & frame options, these versatile fires create a captivating centrepiece which can be styled to suit your interior.

In addition to inset fires, Gazco also offers a number of gas stoves in both traditional and contemporary styles. Available in a choice of sizes and heat outputs, these cutting edge stoves feature realistic fuel-beds and superb flame visuals.

To see the full range of Gazco stoves and fires, visit www.gazco.com.
